

A top-down view of a wooden desk. A laptop is open on the left, displaying a grid of travel photos. A large map of Europe is spread across the desk. A hand is visible at the bottom, holding a black pen and drawing a circle on the map. A black camera with a lens cap removed is on the right. A small bowl of dark grapes is in the top left corner. The text 'VERPLANEN' is at the top center, 'BY THE 8 TEAM' is below it, 'LET'S GO ON A VACATION!' is in the middle, and 'WHERE DO WE GO NEXT?' is in a yellow box at the bottom.

VERPLANEN

BY THE 8 TEAM

**LET'S GO ON A
VACATION!**

WHERE DO WE GO NEXT?

PROBLEM DEFINITION

There are a billion places, and a billion different options to sift from. Instead of you going through the options, and trying to make a decision that fits your needs and likings, and your budget, and wasting time and energy, we do the work for you.

SOLUTION

Instead of first choosing a place, then stretching our budgets and working on compromises, we can go about creating the best itinerary as per the person's budget, needs and likings, filling the trip with what YOU want.

When no two people are the same, how can their holiday experiences be?

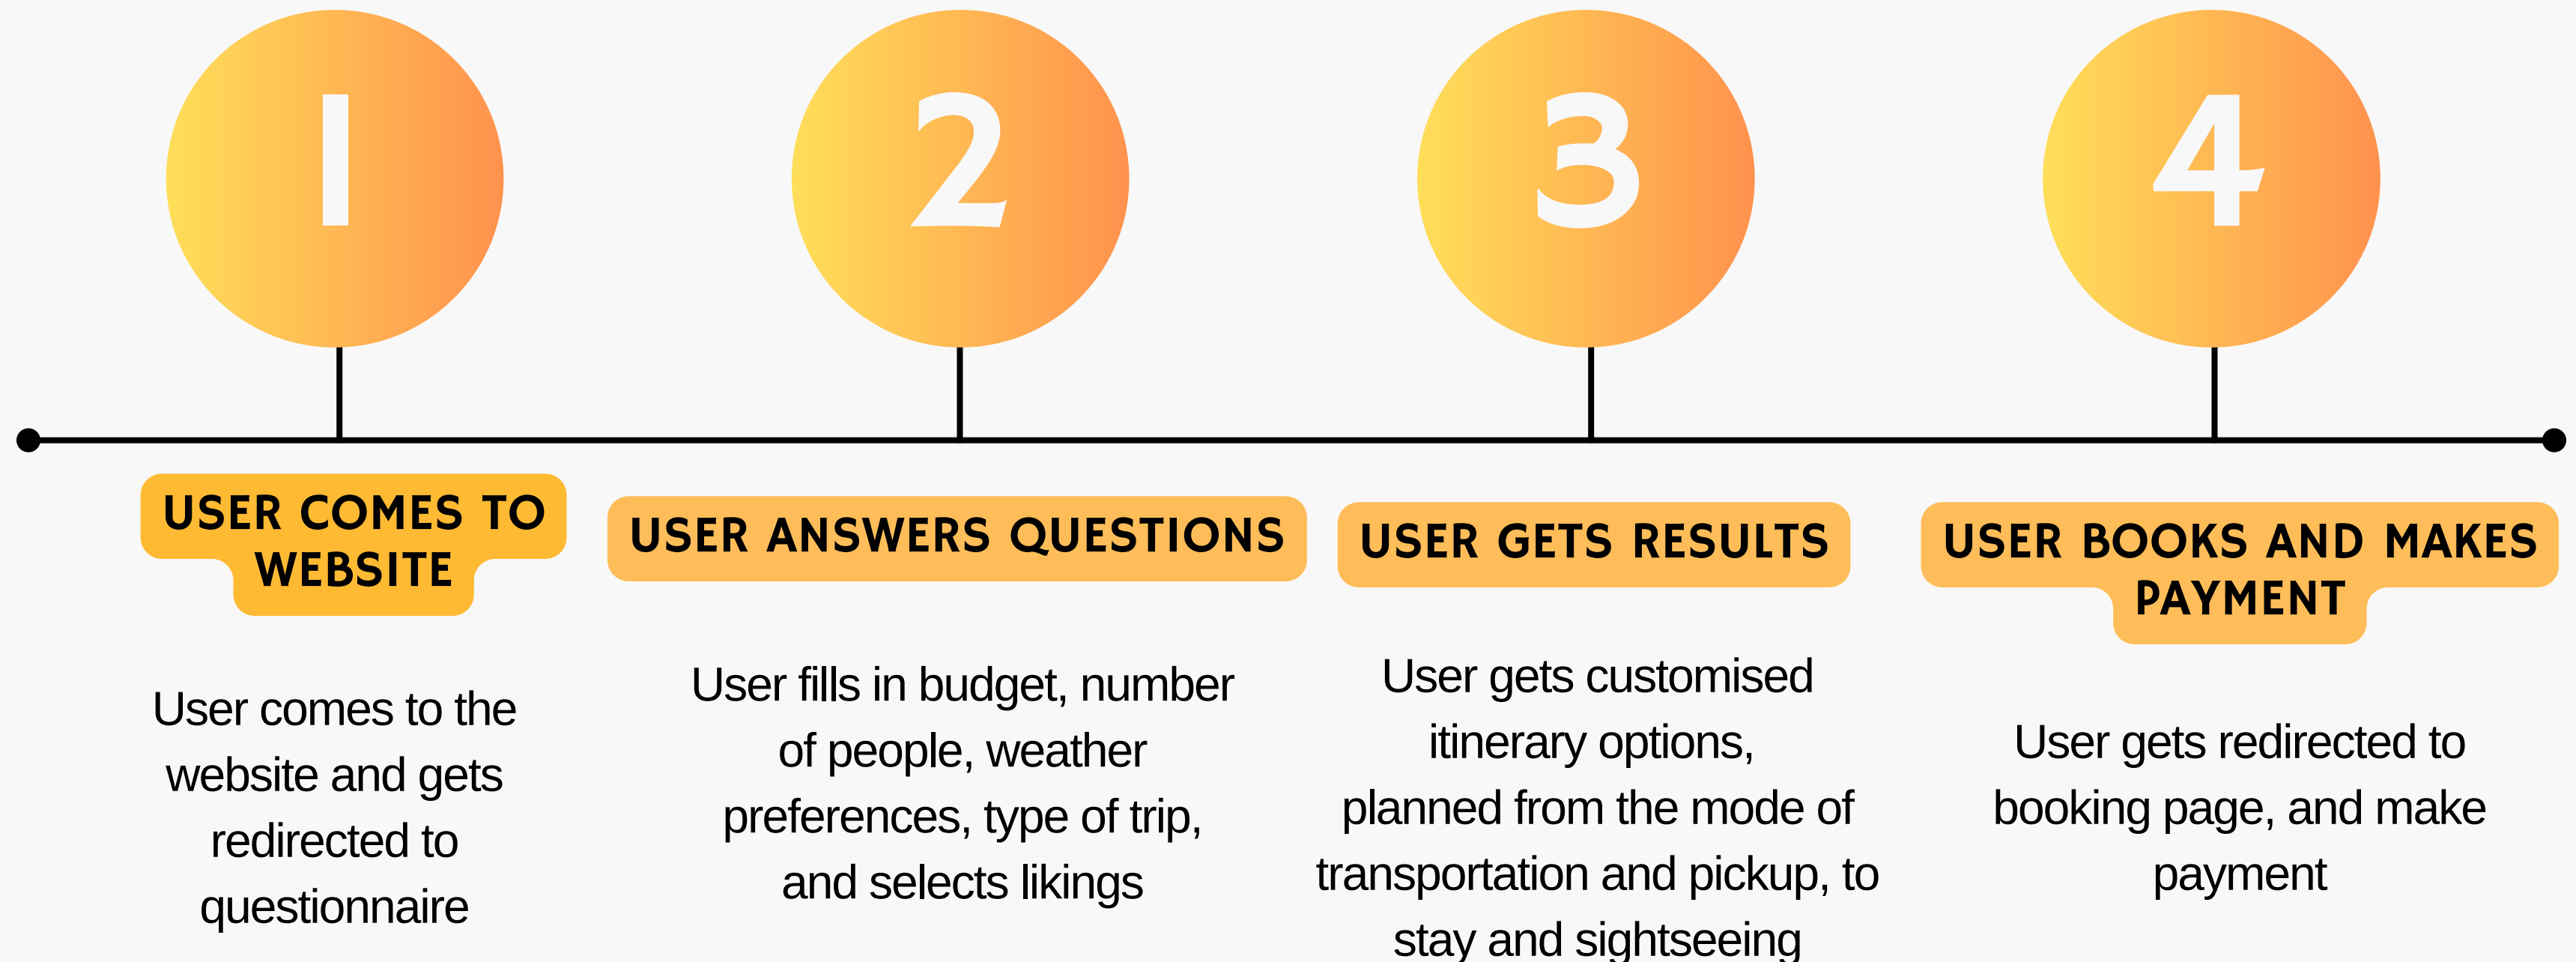

HAPPY DAYS, GOOD FOOD, SWEET MEMORIES

Sit back and enjoy the ride, saving your energy for the good parts, not the planning.

It's about the journey AND the destination. And it's our job to get you there, happy and safe.

UNIQUENESS OF PROJECT

Usually a travel booking website takes in your place requirements first, then sifts through the options, causing you to compromise on various aspects trying to fit your plan into your budget. Moreover, any itinerary provided would be a one-size-fit-all itinerary.

But here, our model takes into account the person behind the holiday, and tailor-makes each package as per the person's likings and wishes, making every holiday with us a dream holiday, where you can sit back and enjoy your trip!

TECH USED

- HTML
- CSS
- JS
- AJAX & API
- MONGO DB
- REACT

A person wearing a brown hat and a grey sweatshirt with a bear logo and the text "BORN BY NATURE" is standing with their arms outstretched, facing a large, snow-capped mountain. The scene is set in a rugged, mountainous landscape with dry vegetation in the foreground.
